

## **Ronald McDonald Family Room Norton Suburban Hospital Medical Plaza I, 2<sup>nd</sup> Floor**

Ronald McDonald Family Room is a small Ronald McDonald House inside a hospital. The mission is the same, to provide comfort and respite for families of children receiving medical treatment by allowing parents stay near their ill child during a difficult and critical time. Families with a baby in the NICU are eligible to stay at Ronald McDonald Family Room at no charge. RMFR is staffed by volunteers seven days a week. Families are able to take a refreshing shower, grab a snack, wash their clothes, email their kids at home, research their infant's illness or just get a good night's sleep.

### Services & Amenities

- Four sleeping rooms where families can get a good night's rest without being far from their new baby
- Two restrooms with shower facilities
- Lactation room with two breast pumps
- Kitchenette area with microwave, refrigerator and stocked with snacks and coffee
- Coca Cola machine with juices, water, and soft drinks for a quarter
- Comfortable recliners and sofa
- Computer with internet access and printer
- Telephones
- Cable TV, VCR and DVD
- Washer and dryer

***To inquire about a sleeping room, please ask your baby's NICU Nurse.***
